Subject: Written Testimony SB 16

Hello,

I am writing with regards to SB16 and asking my testimony be submitted at the 3/14/22 meeting.

As I understand this is a in some ways is a continuation of the of the most recent CT AWB.

My recommendation is to stay focused on supporting law enforcement, the additional provisions as it relates to restricting firearms will not have an impact on crime. We already have laws on the books for and this part of bill will not prevent crime, it only punishes or jeopardizes law abiding citizens who have made every good faith they can to comply with existing laws. I ask as a citizen of Connecticut with 2nd amendment rights that this portion of the bill be removed.

Thank you
Greg Attanasio
